

# TECHNICAL DATASHEET

**Square 40x40x5 mm glass-poly**

ARTICLE NR:

**GS04045.6**

## Technical data

*(calculated values)*

|                        |           |        |
|------------------------|-----------|--------|
| Outside diameter max   | 40.1      | mm     |
| Outside diameter min   | 39.7      | mm     |
| Wall thickness         | 5         | mm     |
| Wall thickness maximum | 5.5       | mm     |
| Wall thickness minimum | 4.5       | mm     |
| Tg (DSC)               | 90        | °C     |
| Fiber                  | Glass     |        |
| Resin                  | polyester |        |
| Weight                 | 1600      | gram/m |
| Internal braiding      | No        |        |
| 90v Winding            | Yes       |        |
| 37° Braiding           | No        |        |

Tolerance of cut profile lengths +/- 1mm

Other standards in accordance with NEN-EN 13706
